

SUMMER CLASSICS T A I L O R E D

OUTDOOR UPHOLSTERY

FABRICS:

Base covers are made from an outdoor performance mesh fabric. This allows the piece to breathe! It allows moisture to escape and aids in drying. Slipcovers and upholstered pieces are wrapped in outdoor performance fabrics. Outdoor performance fabrics are UV and fade resistant plus bleach cleanable. This assures you to have the best in the business!

FRAMES:

The frames are CNC cut from a marine grade 18mm Baltic Birch plywood. This plywood is engineered for the outdoors! They are assembled using exterior grade adhesives and stainless steel fasteners.

MECHANISMS:

Outdoor swivels, swivel glider and pop up sleeper mechanisms are powder coated or epoxy coated for durability. All bearings are stainless steel. Mechanisms are salt tested for 500 hours! Outdoor casters are zinc plated to help prevent corrosion.

BACKS/THROWS:

Backs and throws are made of polyester fiber in the SMS waterproof ticking.

SEAT CUSHIONS:

Seat cushions are made of High Resiliency polyurethane foam with a fiber wrap in a 3 layer SMS (spun bond/melt blown/spun bond) waterproof tick designed for medical use. The tick contains 6% UV additive. Seams are sonic welded by radio frequency to eliminate needle holes.

PADDING:

Seat deck, arm and back poly are made from Reticulated foam. An open cell foam designed to allow moisture to escape and air flow to maximize drying! Reticulated foam has anti-microbial additives to help prevent mold and mildew.

FEET:

Exposed wood feet are made of Iroko. A wood that is naturally resistant to rot and decay. Iroko has a nice brown/gold color. We finish it off with Teak oil! Some styles incorporate a plastic foot where visibility is limited!

SUPPORT:

Interlaced polypropylene webbing provides the support in the seat. Sheet and strap webbing serves as support in the arms and backs.

Fabric Options:

101 Linen Dove

175 Flagship Opal

192 Satine Ether

212 Westin Pebble

238 Belgian Linen

439 Cabana Stripe Stone

440 Cabana Stripe Midnight
